International Journal of Andrology, 1990, **13**, pages 511–512

Subject index

Accessory sex organs, effect of STS-557 398
Acrosin, pig, conversion of proacrosin by zona pellucida 190
Androstanediol
  aniline blue staining for discrimination between fertile and infertile men 452
  production by regenerating Leydig cells 4
Antisperm antibodies, relationship to lymphocytes 50
Antispermatogenic activity, of malvidin chloride in monkey 207

Cryopreservation, donor semen by a simplified method 352
Cryptorchidism
  human, lamina propria and fibronectin in testis 135
  human, ultrastructure of lamina propria and Sertoli cells 470

Epididymis
  boar, acidification of fluid 238
  guinea-pig, localization of oestradiol 147
  human, assessment of function by assay of glucosidase in seminal plasma 297
  human, morphology of efferent ducts 369
  human, specific mRNAs 155
  murine, leucocytes after vasectomy 39
  rat, eosinophil leucocytes in oestrogenic response 500
Ethane dimethane sulphonate (EDS), androgen production by regenerating Leydig cells 4

Gossypol, human, hormone profiles and restoration of spermatogenesis 253

hCG
  human, LH pulsatility in damaged germinal epithelium 223
  human, restoration after gossypol treatment 253
  rat, effect on Leydig cells and LH receptors 110
  rat, plasminogen activator involved in the effect on vasopermeability 306

Immotile cilia syndrome, asthenozoospermia and chronic respiratory disease 216
In-vitro fertilization
  changes in sperm chromatin stability 287
  sperm swelling test as a predictor 93
  use of cryopreserved donor semen 352
  value of sperm characteristics 59
Infection
  peroxidase-positive cells and urethral infection 361
  granulocyte elastase and bacterial growth 273
  influence on secretion of seminal markers 329
Infertility
  asthenozoospermia and respiratory disease 216
  egg white as a substitute for cervical mucus 258
  generation of reactive oxygen species 344
  granulocyte and bacterial growth in seminal plasma 273
  in females immunized with sperm antigen 17
Inhibin, immunohistochemical localization in human testis 463

Leucocytes
  in the murine epididymis 39
  in semen 50
Leukotriene, in the control of interstitial fluid volume 408
Leydig cells
  rat, developmental changes and LH receptors 110
  rat, effect of STS-557 398
  regenerating after EDS-treatment 4
LH
  human, pulsatility in men with damaged germinal epithelium 223
  receptors, developmental changes in response to hCG 110

Malnutrition, glycoprotein biosynthesis by testes 389
Microcirculation
  rat, age-related differences 197
  rat, plasminogen activator in neutrophil extravasation and vasopermeability 306

Oestrogen
  developmental oestrogenization and prostatic neoplasia 77
  guinea-pig, in fetal reproductive organs 147
  rat, prolonged suppression of spermatogenesis 180
  rat, response of the postnatal epididymis 500

Oncogenes, in human teratocarcinoma cell lines 377

Prostaglandin, in the control of interstitial fluid volume in the rat testis 408
Prostatic cancer, effect of developmental oestrogenization 77

Semen analysis
  aniline blue staining 452
  evaluation of the Hamilton–Thorn analyser 100
  hypo-osmotic swelling test 93
  use of hens' egg white as a substitute for cervical mucus 258
Semen
  correlation of score with hamster egg penetration assay 337
  peroxidase-positive cells 361
  human, production of TRH precursors 169
  reactive oxygen species and leucocyte infiltration in fractions 433
Seminal plasma
  granulocyte elastase and bacterial growth 273
  in men with agenesis of the Wolffian ducts 245
  influence of inflammation on secretion of markers 329
  use of inhibitors in the assay of glucosidase 297
Seminal vesicle
  human, fluid on zinc content of sperm chromatin 232
  human, fluid of men with agenesis of Wolffian ducts 245
Sertoli cells
  human, number and ultrastructure in cryptorchidism 470
  rat, androgen effect on 123
Sex hormone-binding globulin, relationship to serum testosterone 67
Sperm antigen, induction of infertility in female rats 17
Sperm characteristics, in predicting the outcome of assisted reproduction 59
Sperm
  human, antisperm antibodies 50
  human, influence of vesicular fluid on zinc of chromatin 232
  human, zinc-binding properties 245
  human, chromatin stability during preparation for IVF 287
  human, aniline blue staining as a marker 452
  human, hypo-osmotic swelling test as a predictor of fertilizing capacity 93
Sperm motility
  human, influence of complement 81
  human, effects of propranolol and caffeine 87
  human, hypo-osmotic swelling test 93
  human, evaluation of the Hamilton–Thorn analyser 100
  human, computerized analysis 278
Spermatids, defence mechanisms in isolated cells 26
Spermatogenesis
  blue fox, spermatogenic cycle 315
  human, LH pulsatility in men with damaged germinal epithelium 223
  human, restoration after gossypol treatment 253
  monkey, anti-spermatogenic activity of malvidin chloride 207
  rat, suppression by oestrogen and toxicity of procarbazine 180

Teratocarcinoma cell lines, cellular oncogenes in 377
Testis
  hamster, sulphydryl oxidase during photoperiodic involution 488
  human, lamina propria and fibronectin in cryptorchidism 470
  human, lamina propria in normal and cryptorchid testes 135
  human, localization of inhibin 463
  human, measurement of volume by ultrasonography 267
  rat, glycoprotein synthesis in protein malnutrition 389
  rat, microcirculation in relation to age 197
  rat, effect of STS-557 398
  rat, interstitial fluid volume 408
Testosterone
  human, relationship to sex hormone-binding globulin 67
  rat, effects on Sertoli cells 123
  rat, production by regenerating Leydig cells 4

Vasectomy
  effect on leucocytes in epididymis 39
  long-term effects on health status 419
